

About SPLC

Senior Persons Living Connected is a not-for-profit organization that cares deeply about the well-being of seniors and provides programs and services that meet the diverse needs of older adults and their caregivers. For more than 35 years we've provided affordable housing and been actively involved in supporting independence.

“ My mother had a stroke last year. I really did not want to put her into a nursing home. Ever since I used the personal care services at SPLC, I can have peace of mind while working because I know she is well taken care of at home. ”

About the Service

Our Home Support team delivers sensitive, caring aid to anyone coping with health problems, adjusting to lifestyle changes, or dealing with ongoing physical and/or social needs. We assist people living at home or in a healthcare facility - providing essential support services to them and to their caregivers.

“ I appreciate the excellent service provided by Senior Persons Living Connected. I would also like to express my gratitude for my PSW who is always punctual, diligent, and considerate. ”
